A REVIEW FROM ONE OF OUR GUESTS

So this isn't quite an "Inn" review but more a O.M.G. delicious burger review...

Driving back from Montreal, I had 4 hungry passengers and made a promise that I'd find something worth them holding off from McD's for. More than relieved to discover Longfellows two miles off the exit I randomly choose to take, we took a quick look at this "older" looking place and decided to give it a shot. Every one of the staff was incredibly nice and friendly. Then came their Kobe burger. This burger as of today, is the best burger I've ever had in my life. Like ever. Seriously. This burger was so big, they had to keep it together with a steak knife stabbed through the middle. Served with a huge portion of sides (you can choose fries, yam, delicious mashed potatoes, etc) it was seriously to die for.

I now have reasons to come back to this random little town off the beaten path. 10/5/2010 YELP.com
